

Queries used in the Video Lecture

```
Use sakila;
```

```
select * from city;
```

```
select * from country;
```

```
-- Simple Join / Theta Style
```

```
select * from city, country  
where city.country_id = country.country_id;
```

```
select * from city ci, country co  
where ci.country_id = co.country_id;
```

```
select city_id, city, ci.country_id,  
country from city ci, country co  
where ci.country_id = co.country_id  
Order By city Asc;
```

```
-- Natural Join
```

```
USE employees;
```

```
SELECT * FROM employees ;
```

```
SELECT * FROM dept_emp ;
```

```
SELECT * FROM  
employees  
NATURAL JOIN dept_emp;
```

```
-- Inner Join / ANSI STYLE
```

```
Use sakila;
```

```
SELECT city, country  
FROM city  
INNER JOIN country ON  
city.country_id = country.country_id;
```

```
SELECT city, country  
FROM city  
INNER JOIN country  
USING (country_id);
```
