Prepared by Ashwin Pajankar

Views in MySQL

```
USE SAKILA;

SHOW TABLES;

SELECT * FROM address;

CREATE OR REPLACE VIEW address_view AS

SELECT address, postal_code

FROM address;

SELECT * FROM address_view;

CREATE OR REPLACE VIEW address_view AS

SELECT address, postal_code

FROM address

WHERE postal_code IS NOT NULL;

SELECT * FROM address_view;

SHOW CREATE VIEW address_view;
```
